

If you require this replacement kit, please contact customer service at Alvanon HK!

Package:

Alvanon has sent you a hanger bar, a T-shaped hanging pole connector (with a plastic clip) and 3 allen wrenches for replacement.

1.

2.

3.

Replace the hanger bar:

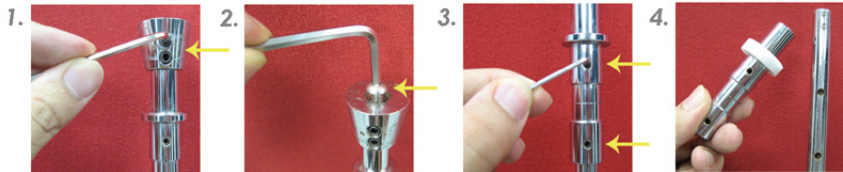

Step 1

- Remove 2 screws from the full form stand with a 4mm allen wrench.

Step 2

- Replace old hanger bar with new and rescrew new hanger bar in place.

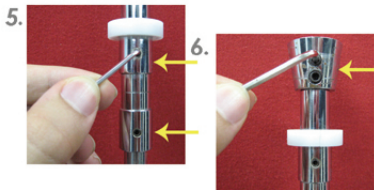

Step 1 - Remove 2 screws from hanging pole knob with a 3mm allen wrench.

Step 2 - Unscrew the top screw with a 4mm allen wrench and remove the knob.

Step 3 - Remove 2 screws from the T-shaped hanging pole connector with a 2mm allen wrench as shown.

Step 4 - Slot new T-shaped hanging pole connector (with plastic clip) into the same position as the one just removed.

Step 5 - Screw T-shaped hanging pole connector until it is tight as shown.

Step 6 - Install and screw the hanging pole knob until it is tight.

Congratulations! You have successfully installed the replacement hanger bar and T-shaped hanging pole connector.
